

TAP MAGIC[®] XTRA-THICK[®]

EXTREME PERFORMANCE HEAVYWEIGHT CUTTING FLUID FOR THE HARDEST METALS.

- Virtually eliminates work hardening.
- Ideal for inconel, titanium, stainless and hardened steels. Highly effective on any metal up to 45 RC!
- A single application stays with the tool for cuts of long duration, all the way to the bottom of most holes.
- Clinging action makes this cutting fluid great for lathes and mill work, since fluid stays on the work piece during high-speed rotation.

Not just thick, it's Xtra-Thick!

Believe In Magic

Tap Magic XTRA-THICK cutting fluid is the ideal choice for cuts of extreme pressure or long duration on the hardest of the hard-to-machine metals. Always, the cut is effortless and the result is a beautiful micro-fine finish. This highly engineered formula is totally free of 1,1,1 trichloroethane. Available in 16-ounce, 1-gallon, 5-gallon, 30-gallon, and 55-gallon sizes.

THE EXTREME PERFORMANCE HEAVYWEIGHT CUTTING FLUID

Thanks to its extended cling time, Tap Magic XTRA-THICK stays with the tool and work piece during high speed rotation, making it an ideal cutting fluid for lathe and mill work. Plus it's great for any cut of long duration (like deep hole drilling) on hard-to-machine metals.

While Tap Magic® XTRA®-THICK is highly effective for any cut on any metal, it is without equal when making cuts of long duration on the hardest metals such as inconel, titanium, stainless and other hardened steels. In fact, it's highly effective on any metal up to 45 RC!

Tap Magic XTRA-THICK contains the proprietary EP-X³ additive for a performance boost. It virtually eliminates work hardening. And it has an extended cling time – so it stays with the tool and work piece longer for deep hole cuts. Plus it won't sling off as readily when used for lathe and mill work.

Tap Magic XTRA-THICK is the fluid of choice for your heavy duty metal cutting needs.

OTHER FORMULAS

Tap Magic XTRA-THICK is joined by a number of other Tap Magic Cutting Fluids, each carefully engineered for superior performance.

- Tap Magic with EP-XTRA® is an ozone-friendly, professional-quality cutting fluid that's highly effective for virtually any cutting operation on any metal.

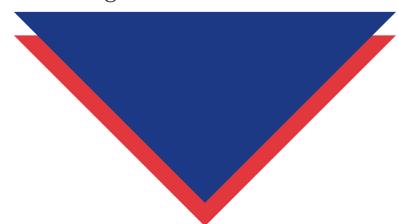

- Tap Magic XTRA®-FOAMY is an extreme-performance cutting fluid with a foam consistency that provides high visibility. It is ideal for all cuts on all metals – even hard metals up to 45 RC.

- Tap Magic Aluminum is specifically formulated for work on aluminum.

- Tap Magic Formula 1 Aqueous is totally biodegradable and has a non-corrosive water base. Highly effective for all cuts on all metals except magnesium.

- Tap Magic Formula 2 Eco-Oil is totally biodegradable and has a unique base of natural oil that resists smoking, even on cuts that produce a lot of heat.

- Tap Magic ProTap®, our original biodegradable formula, is an outstanding general purpose cutting fluid that's free of all regulated chemicals.
